

Markal QUIC STIK®

Images similar

Colour: ■ ■ ■ ■

Packaging unit: 12 pcs.

Quick drying marker in crayon form with twist- off cap. The coloured crayon is very soft, adheres permanently and dries quickly.

Furthermore, the **QUIC STIK®**, comprising an impact resistant plastic sleeve with turning mechanism, is a paste- based industrial marker with extra wide stroke. The paste marker is suitable for almost all surfaces and even adheres under water. With its extremely good coverage the coloured paste is particularly well suited to rough, dirty, oily, rusty and wet surfaces and so can be used in many different areas of industry, such as for example, in steelworks, in the steel trade, in steel fabrication, shipbuilding or in the toolmaking industry. Whether in the goods received area or in product identification the QUIC STIK® is at home anywhere.

The colour is permanent, water and wipe resistant, quick drying, extremely light- fast, with a high degree of coverage and is also suitable for concrete, plastic, wood, rubber, cardboard and glass.

Size: 115mmx13mm

Colours: White, black, red, yellow, green, blue, orange, purple
