

PAINT MARKER Ref. LM40 NS

Images similar

Colour:     

Packaging unit: 10 pcs.

Thickness (mm): 4

The special feature of the GIMARK LM 40- NS is that it is particularly well suited to a great variety of applications. You can thus label all types of smooth and clean surfaces, in particular stainless steel.

The LM 40- NS is ideally suited to use in the automotive industry, in toolmaking, with the construction of machinery, for point marking or in the paints industry. The special chemical characteristics even allow it to be used in the medical sector, e.g. in clinics.

This versatile, modern marker impresses with its silicone- free, oil and water resistant ink. Like all our paint markers, the LM 40- NS is a GIMARK quality product and naturally TÜV- approved, as well as being demonstrably chlorine- free. A copy of the certified test report from the 'Institut für Lacke und Farben' [institute for paints and dyes] is available on request.

The new GIMARK LM 40- NS:

- Chlorine- free
- Durable tip
- Heat resistant up to 1180° C (all colors)
- Safety datasheets available
- Available in: White, black, red, yellow and blue
- Available in practical packs of 10.
- Made in Germany
