

ENGRAVING PEN GST540, pneumatic

Images similar

Packaging unit: Individual

The pneumatic engraving pen marks all materials (e.g. metal and glass) up to 65 HRC hardness. The replaceable hard metal tip, high frequency and therefore vibration- free operation, allows very fine marking.

- The pneumatic engraving pen marks all materials (e.g. metal and glass) up to 65 HRC hardness.
- These engraving pens are equipped with a quick- change hard metal tip.
- The high frequency enables very precise marking.
- The engraving pens are vibration- free thanks to their light drive mechanism.

Frequency: 540 strokes/ sec.

Pressure: 5-8 bar

Adjustable: Yes

Weight: 150 g
