

Dykem BRITE- MARK® 33

Images similar

Colour: ■

Packaging unit: 12 pcs.

Thickness (mm): 1.5

The industrial pen with valve system for particularly challenging lettering tasks. Universal marker for permanent marking on almost all surfaces. Marks metal, rubber, plastic, glass, concrete, leather, stone, wood, vinyl and many other materials. Also very well suited to slightly oily surfaces. BRITE- MARK® 33: Fine tip.

Optimum ink flow with simultaneous protection from drying out, even with the cap off, thanks to the valve system.

Characteristics:

- Universal marking pen for almost all materials
- Quick drying oil- based ink
- Valve system
- Weather resistant
- Light- fast
- Ink does not flake off
- Drying time: 25 - 35 seconds
