

Dykem High Temp 44

[Images similar](#)

Colour: ☐

Packaging unit: 12 pcs.

Thickness (mm): 3

Heat- resistant industrial marker with felt tip. The special marker for heat- treated parts. The marking remains after heat- treatment in the oven.

Advantages:

- The sealing cap has a thread and thus will not become lost during use.
- A valve mechanism prevents the ink drying out

Temperature resistant:

- Black: 1093°C
- White: 899°C
- Green: 982°C
