

ACID- PROOF RUBBER STAMP

Images similar

Suitable for manual marking of all sizes of workpieces. Acid- resistant & oil- resistant rubber goods. Designs: Hand stamp, stamp with replaceable types, band stamp and pocket stamp.

Designs:

- Hand stamp
- Stamp with replaceable printing types
- Band stamp
- Pocket stamp in all sizes
- Self- inking stamp

The marking is implemented with the etching ink, which is applied by means of the rubber stamp. The etching ink is applied to the rubber stamp with a special acid- resistant stamp- pad

Application:

- Clean surface
- Moisten the rubber stamp lightly with the etching ink
- Press onto the surface
- Neutralise with Neutralix

Accessories:

- Neutralix
