

Markal STYLMARK tube marker

Images similar

Colour:

Packaging unit: 10 pcs.

Thickness (mm): 2 | 3 | 6

Ideal for weatherproof marking of all surfaces (metal, concrete, wood, etc.). STYLMARK lets you reliably mark rough, oily and wet surfaces. NEW: Available immediately in the following lettering thicknesses: 2 mm, 3 mm and 6 mm. Application temperature: -20°C to 70°C

The special marker for industrial applications. The best solution for permanent marking of rough surfaces. STYLMARK contains a non- toxic paint: No toluene and no heavy metals.

- Colours: White, yellow, blue, red, green, black, orange, purple, grey, pink, brown
- Writing thickness: 2 mm, 3 mm and 6 mm
- Packaging unit: 10 pieces and 100 pieces
- Application temperature: -20°C to 70°C
- Contents: 50 ml

Operating instructions:

Hold the tube vertically and press onto the surface to be marked. For even lettering, apply steady pressure to the tube marker. Clean the tip after use. Attention: The paint can irritate the eyes. Highly flammable. Keep STYLMARK away from naked flames.
