

GIMARK COLOR STICK paint stick

Images similar

Colour: ■

Packaging unit: 12 pcs.

The versatile crayon. The COLOR STICK is a unique solution that combines the advantages of fixed colour and a pen. This extraordinary crayon is suitable for a great variety of different applications.

Advantages:

- Ready to use as soon as opened
- No slipping or screeching
- Marking can be removed again with ethanol
- Writes at any angle, even overhead
- Water resistant and light- fast
- Works on wet surfaces
- Colours: White, yellow

Applications:

Marking and labelling of metal, wood, plastic, glass, rubber, leather and paper. The COLOR STICK is ideally suited for use in the steel trade or in steelworks.

Application:

Remove inner cap. Fit outer cap onto the rear end of the marker. Turn the feed mechanism until the core of the crayon emerges. If you wish to write with lower case letters then you can sharpen the tip of the crayon with a knife. Unclean or oily surfaces should be cleaned with a dry cloth before marking. After use, put the outer cap on again.

Operating temperature: - 10°C - 200°C
