

Mark surfaces permanently and economically with the tube writer
COLORMARK!

Tube writer

Colour range

Application

Lettering metal, wood, concrete, cardboard, plastic, also rough and oily surfaces - no problem with the economic tube markers for the industry.

Tube writer COLORMARK

- ✓ The special marker for the industry.
- ✓ The economic solution for weather-resistant lettering on rough or oily surfaces.
- ✓ Ideal for marking all surfaces (metal, concrete, wood, cardboard, plastic, etc.).
- ✓ The multifarious COLORMARK colours are chlorine and lead-free and therefore optimally suited for stainless steel.
- ✓ COLORMARK contains non-toxic colours: no toluene, no heavy metals.

Colours: white, yellow, red, blue, green, black, grey, brown, violet, orange

Line strength: 2 mm, 3 mm and 6 mm

Unit of packaging: 10 pieces and 100 pieces
