

GIMARK COLORMARK ball marker

Images similar

Colour:

Packaging unit: 10 pcs.

Thickness (mm): 2 | 3 | 6

The special marker for industrial applications. The best solution for permanent marking of rough surfaces. COLORMARK contains a non- toxic paint: No toluene and no heavy metals.

Ideal for weatherproof marking of all surfaces (metal, concrete, wood, etc.). COLORMARK lets you reliably mark rough, oily and wet surfaces. The versatile COLORMARK paints are low in chlorine and lead and thus ideally suited for stainless steel. COLORMARK contains a non- toxic paint: No toluene and no heavy metals

- Application temperature: -20°C to 70°C
- Contents: 50 ml

Operating instructions:

Hold the tube vertically and press onto the surface to be marked. For even lettering, apply steady pressure to the tube marker. Clean the tip after use. Attention: The paint can irritate the eyes. Highly flammable. Keep COLORMARK away from naked flames.
