

GIMARK Acid pen KBS 5003

Images similar

Packaging unit: Individual

Thickness (mm): 2

The metal etching pens made by GIMA are the ideal solution for permanently marking metal. The following materials can be labelled simply and cost- effectively with the KBS 5003 etching marker: low- alloy steels and cast iron. Once marked you simply neutralise the marking with NEUTRALIX.

Application:

- Clean surface thoroughly (abrasive block, abrasive felt)
- Remove oxide layer, oil and grease
- Mark
- Clean/ neutralise with NEUTRALIX NG01
- Oil with corrosion protection KBS 4000 to provide protection from corrosion
