

Oil- Pen

Images similar

Packaging unit: Individual

The Oil- Pen has a valve system and is filled with high quality marking oil. All components of this all- rounder are free of heavy metals, toluene and xylene.

Applications:

The all- rounder for cars, motorbikes, boats and caravans

- Cleaning and care for lock cylinders - without silicone - so does not stick!
- Expels dampness from electrical connections.
- Loosens rusted screws and protects from corrosion.
- V- belts stay supple and run quieter.

Essential for DIY enthusiasts and craftsmen

- Helps when pliers stiffen up.
- Loosens rusted nuts and jammed mechanisms.
- Quietens squeaking wheels.
- Lubricates padlocks and keeps them operating smoothly.

Always close at hand in the home and in the garden

- Protects garden shears from corrosion.
- Rectifies squeaks on door, hinges, swings etc.

- Dissolves salt deposits on terracotta pots.
- Loosens rusted screws e.g. on wheelbarrows.
- Removes welts from laminate flooring.
- Loosens obstinate labels and removes adhesive residue.

Always close at hand with sport and leisure activities.

- Cleans and lubricates moving parts and bearings e.g. on bicycles or in- line skates etc.
- Loosens resin from bicycle chains and makes them free- moving again.

The liquid tool, for business operations too.

- Cleaning and care for all types of vehicles.
- Expels moisture from electrical contacts (only use when the equipment is switched off) and protects from short- circuits.
